PROFESSIONAL PROFILE

Software Developer with 5+ years of professional and freelance experience building production web applications and business platforms. Strongest in **Laravel, PHP, JavaScript, REST APIs, and database-driven applications**, with hands-on experience across React.js, Next.js, Vue.js, Livewire, Node.js, CodeIgniter, AdonisJS, MySQL, PostgreSQL, MongoDB, and Firebase. Experienced in developing **ERP, POS, eCommerce, accounting, inventory, social media, and custom business management systems** for local and international clients. Focused on clean architecture, maintainable code, reliable integrations, performance, and delivering production-ready solutions.

CORE EXPERTISE

- Backend:** Laravel, PHP, CodeIgniter, Node.js, AdonisJS
- Database:** MySQL, PostgreSQL, MongoDB, Database Design
- Business Systems:** ERP, POS, eCommerce, Accounting & Inventory
- Frontend:** JavaScript, React.js, Next.js, Vue.js, Livewire
- APIs:** REST APIs, Third-Party Integrations, Firebase
- Development:** Git, GitHub, GitLab, Clean Code & Scalable Architecture

WORK EXPERIENCE

- Sunshine IT** AUG 2026 — PRESENT
Software Developer
- Develop and maintain production web applications using **Laravel, PHP, JavaScript, Livewire, Node.js, and modern frontend technologies**.
 - Build and enhance **ERP, POS, eCommerce, accounting, inventory, and business management systems**.
 - Develop **REST APIs, database structures, business logic, and third-party integrations** for production applications.
 - Work across **MySQL, PostgreSQL, MongoDB, Firebase, Git, and GitHub/GitLab** within modern development workflows.
- Sunshine IT** APR 2022 — JUL 2026
Freelance Software Developer
- Developed and delivered **45+ production web applications** for local and international clients.
 - Worked across **PHP, Laravel, CodeIgniter, JavaScript, Vue.js, React.js, Next.js, Livewire, Node.js, and AdonisJS**.
 - Designed and developed **ERP, POS, eCommerce, accounting, inventory, social media, and custom business platforms**.
 - Built **REST APIs and third-party integrations** while working with MySQL, PostgreSQL, MongoDB, and Firebase.
- Codecell Limited** DEC 2023 — FEB 2024
Laravel Developer
- Developed and maintained web applications using **Laravel, Vue.js, React.js, Inertia.js, JavaScript, and MySQL**.
 - Contributed to **5 major software projects**, implementing backend functionality, APIs, database operations, and frontend features.
- Findbook BD** JAN 2021 — OCT 2023
Laravel Developer
- Developed dashboards, business platforms, production web applications, and **REST APIs** using Laravel, Vue.js, JavaScript, and MySQL.
 - Implemented backend functionality, database operations, API integrations, and business logic for production systems.
- Upwork & Fiverr** JUN 2020 — MAR 2026
Freelance Web Developer
- Delivered **15+ web applications** including eCommerce platforms, ERP systems, dashboards, and custom business applications.
 - Worked with **Laravel, PHP, CodeIgniter, Vue.js, React.js, Next.js, Node.js, JavaScript, and MySQL** for local and international clients.
 - Developed custom features, REST APIs, third-party integrations, database solutions, and responsive web interfaces.

EDUCATION

- B.Sc. in Computer Science & Engineering** 2022 — 2026
Gono Bishwabidyalay, Savar, Dhaka
- Higher Secondary Certificate (HSC) — Science** 2019 — 2020
Savar Laboratory College, Savar, Dhaka
